

Western Troy Updates Drilling Activity at its MacLeod Lake Molybdenum/Copper Project

TORONTO, ONTARIO--(April 10, 2006) - Western Troy Capital Resources Inc. (TSX VENTURE:WRY) announced today that the drilling program at its MacLeod Lake molybdenum/copper project is progressing on schedule. Through April 7, 2006, approximately 2000 meters of the planned 3,500 meter program has been completed. First assay results are expected in two to three weeks.

About Western Troy: Western Troy Capital Resources Inc. is a mineral exploration company. Its 100%-owned MacLeod Lake Property hosts a well defined Main Zone of mineralization as outlined by extensive drilling, as well as the South Zone and several IP anomalies of potential interest. The shares of Western Troy trade on the TSX-Venture exchange under the symbol WRY, with 10,109,453 shares outstanding. Last October, Western Troy received an independent Technical Report consistent with National Instrument 43-101 on its MacLeod Lake Property located about 275 km north of Chibougamau, Quebec. The report has been filed on SEDAR and is available at www.SEDAR.com and on the company's website, www.WesternTroy.com.

Statements in this release that are forward-looking reflect Western Troy's current views and expectations with respect to its performance, business, and future events. Such statements are subject to various risks and assumptions, some, but not necessarily all, are disclosed elsewhere in the Company's periodic filings with Canadian securities regulators. Such statements and information contained herein represent management's best judgment as of the date hereof based on information currently available; however actual results and events may vary significantly. The Company does not assume the obligation to update any forward-looking statement.

The TSX Venture Exchange has not reviewed and does not accept responsibility for accuracy or adequacy of this release.
