

Drill is turning at Western Troy's MacLeod Lake Copper/Molybdenum Project in Quebec

November 10, 2011, Toronto, Ontario - Western Troy Capital Resources (TSX Venture: WRY, US-OTC: WTCRF) (Western Troy or the Company) announced today a core drill is currently on site and is drilling to test new drill targets identified in a recent interpretation of airborne geophysical data. The map below shows the drill targets. Electromagnetic anomalies (conductive zones) are identified by the red to pink colours, pink being the strongest anomalies. The map shows there may be additional conductors near surface that may indicate additional resources northwest, southeast, and southwest of the main zone.

About Western Troy: Western Troy's shares trade on the TSX Venture Exchange under the symbol WRY. Western Troy has 33,589,970 shares outstanding. More information on Western Troy can be found on its Website at www.westernroy.com.

Forward Looking Statements: Statements in this release that are forward-looking reflect the Company's current views and expectations with respect to its performance, business, and future events. Such statements are subject to various risks and assumptions, some, but not necessarily all, are disclosed elsewhere in the Company's periodic filings with Canadian securities regulators. Such statements and information contained herein represent management's best judgment as of the date hereof based on the information currently available; however actual results and events may vary significantly. The Company does not assume the obligation to update any forward-looking statement.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release. Mr. Claude P. Larouche, P. Eng. (OIQ, Quebec), has approved the technical data presented in the news release. Mr. Larouche is an independent consultant for Western Troy and acts as the Qualified Person under National Instrument NI-43-101.
